The financial statements of Cigna HealthCare of Maine, Inc., (the Company), have been prepared in conformity with accounting practices prescribed or permitted by the State of Maine Department of Insurance.

The State of Maine Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Maine for determining and reporting the financial condition and results of operations of a Health Maintenance Organization (HMO), for determining its solvency under the State of Maine Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Maine.

The Bureau of Insurance approved the Company's Plan of Withdrawal indicating the Company's decision to exit the health maintenance organization market in the state of Maine.

Under this Plan, the Company ceased issuing new HMO policies effective January 1, 2010, and will offer existing group customers the opportunity to procure group health insurance coverage through Connecticut General Life Insurance Company (CGLIC), a Cigna Company that utilizes substantially the same network of participating providers in the Maine market. The effective date of the withdrawal is December 31, 2010. The Company has received Bureau of Insurance permission to surrender its HMO license which is effective 1/1/2014.

Basis of Presentation: These financial statements have been prepared in conformity with the accounting practices prescribed or permitted by the State of Maine Department of Insurance, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) and include management's estimates and assumptions, such as those regarding medical costs and interest rates, that affect the recorded amounts. Significant estimates used in determining insurance liabilities are discussed in the Notes to Statutory Financial Statements. These statutory accounting practices disallow certain assets from admission in the Statutory Balance Sheets. These assets, otherwise included on the Company's balance sheets prepared under GAAP, include receivables greater than 90 days past due. Under GAAP, bonds classified as available-for-sale are carried at fair value with the related unrealized appreciation (depreciation) recorded as a component of equity. Under statutory accounting principles, bonds are carried principally at amortized cost. Under GAAP, deferred taxes are recorded for any temporary differences between the tax basis of assets and liabilities to the extent it is more likely than not that the deferred tax assets are realizable, with changes in deferred tax assets and liabilities recorded as a component of net income tax expense. The amount of deferred tax assets that may be admitted is generally limited based on the Realization Threshold Limitation Table in SSAP101. The net change in the deferred tax assets and liabilities is recognized as a separate component of changes in unassigned surplus.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

- (1) Short-term Investments: Investments with a maturity greater than three months but less than one year at the time of purchase are included in short-term investments and are carried at amortized cost.
- (2) Bonds: Effective December 31, 2010, the Company adopted Statement of Statutory Accounting Principles (SSAP) No. 100, Fair Value Measurements. This guidance expands disclosures about fair value measurements and clarifies how to measure fair value by focusing on the price that would be received when selling an asset or paid to transfer a liability (exit price). The Company's financial assets measured at fair value would include bonds valued at the lower of cost or fair value when reported at fair value at the balance sheet date. As of December 31, 2013 and 2012, the Company had no financial instruments measured at fair value in the financial statements.

Bonds are carried at amortized cost, except those in or near default, which are carried at the lower of cost or fair value. Bonds are considered impaired and their cost basis is written down to fair value through realized gains and losses, when management expects a decline

in value to persist (i.e., the decline is other than temporary). The calculation of gain or loss on the sale of bonds is based on specific identification at the time of sale. The Company stops recognizing interest income when interest payments are delinquent or when certain terms (interest rate or maturity date) have been restructured. Net investment income on these investments is only recognized when interest payments are actually received. The Company did not exclude any investment income due and accrued at December 31, 2013 and 2012. The premium or discount on bonds is recognized using the scientific constant yield method.

Management develops these estimates using actuarial methods based upon historical data for claim payment patterns, cost trends, product mix, seasonality, utilization of health care services and other relevant factors. When estimates change, the Company records the adjustment in medical and hospital expenses in the period the change in estimate occurs. Claims adjustment expenses include a reserve for additional administrative expenses associated with unpaid health claims that are in the process of settlement, as well as those that have been incurred but not yet reported. This reserve is based on the historical relationship between claims handling expenses and incurred claims.
- (12) Capitalization Policy: The Company has not modified its capitalization policy from the prior year.
- (13) Pharmaceutical Rebate Receivables: No Change

2. **Accounting Changes and Corrections of Errors**

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Maine. Effective January 1, 2001, the State of Maine required that insurance companies domiciled in the State of Maine prepare their statutory basis financial statements in accordance with the NAIC *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the State of Maine insurance commissioner.

Accounting changes adopted to conform to the provisions of the NAIC *Accounting Practices and Procedures Manual* are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. The cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been applied retroactively for all prior periods. No changes were reported for 2013 and 2012.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

The Company participates in a qualified, non - contributory defined benefit pension plan sponsored by Cigna. Cigna allocates amounts to the Company based on salary ratios. The Company provides retirement benefits to substantially all eligible employees through a single integrated plan (the Plan) sponsored by Cigna. The Company's policy for the Plan is to fund at least the minimum amount required by the Employee Retirement Income Security Act of 1974 (ERISA). On May 8, 2009, the Company announced a freeze of its primary domestic defined benefit pension plans effective July 1, 2009. A curtailment of benefits occurred as a result of this action since it eliminated the accrual of benefits effective July 1, 2009 for active employees enrolled in these domestic pension plans. As a result, pension expense is no longer allocated to the Company and is not included within administrative expenses for the periods ended December 31, 2013 and 2012.

B. Defined Contribution Plan

The Company participates in a capital accumulation 401(k) plan sponsored by Cigna in which employee contributions on a before-tax basis are supplemented by the Company's matching contributions. A substantial amount of the Parent's contributions are invested in the Cigna common stock fund. Employees may invest in one or more of the following funds: Cigna common stock fund, several diversified stock funds, a bond fund and a fixed-income fund. Cigna may elect to increase its matching contributions if Cigna's annual performance meets certain targets. The Company's expense for such plans was included within administrative expenses for the periods ended December 31, 2013 and 2012.

E. Postemployment Benefits and Compensated Absences

The Company provides certain other postretirement benefits to retired employees, spouses and other eligible dependents through a plan sponsored by Cigna. The Company has no legal obligation for benefits under these plans. Cigna allocates amounts to the Company based on a combination of salary ratios and member months. Effective March 31, 2013, Cigna froze active employees' future benefit accruals. A curtailment of benefits occurred as a result of this action because benefits for future services for active employees in the plan were eliminated.

Regulatory and Industry Developments:

Health care regulation.

The business of administering and insuring employee benefit programs, particularly health care programs, is heavily regulated by federal and state laws and administrative agencies, such as state departments of insurance and the federal Departments of Labor and Justice, as well as the courts. Regulation and judicial decisions have resulted in changes to industry and Cigna's business practices and will continue to do so in the future. In addition, Cigna's subsidiaries are routinely involved with various claims, lawsuits and regulatory audits and investigations that could result in financial liability, changes in business practices, or both. Health care regulation in its various forms could have an adverse effect on Cigna's health care operations if it inhibits Cigna's ability to respond to market demands or results in increased medical or administrative costs without improving the quality of care or services.

Other possible regulatory changes that could have an adverse effect on Cigna's employee benefits businesses include:

- additional mandated benefits or services that increase costs without improving the quality of care;
- legislation that would grant plan participants broader rights to sue their healthplans;
- changes in ERISA regulations resulting in increased administrative burdens and costs;
- additional restrictions on the use of prescription drug formularies;

- additional privacy legislation and regulations that interfere with the proper use of medical information for research, coordination of medical care and disease and disability management;
- additional rules establishing the time periods for payment of health care provider claims that vary from state to state;
- legislation that would exempt independent physicians from antitrust laws; and
- changes in federal laws, such as amendments to income tax laws, which could affect the taxation of employer provided benefits.

The health care industry remains under scrutiny by various state and federal government agencies and could be subject to government efforts to bring criminal actions in circumstances that could previously have given rise only to civil or administrative proceedings.

Litigation and Other Legal Matters

Cigna and its subsidiaries (including the Company) are routinely involved in numerous claims, lawsuits, regulatory and IRS audits, investigations and other legal matters arising, for the most part, in the ordinary course of managing a health services business, including payments to providers and benefit level disputes. Such legal matters include benefit claims, breach of contract claims, tort claims, disputes regarding reinsurance arrangements, employment related suits, employee benefit claims, wage and hour claims, and intellectual property and real estate related disputes. Litigation of income tax matters is accounted for under the NAIC's accounting guidance for loss contingencies. Further information can be found in Note 3. The outcome of litigation and other legal matters is always uncertain, and unfavorable outcomes that are not justified by the evidence can occur. The Company believes that it has valid defenses to the legal matters pending against it and is defending itself vigorously.

When the Company (in the course of its regular review of pending litigation and legal matters) has determined that a material loss is reasonably possible, the matter is disclosed. In accordance with applicable accounting guidance, when litigation and regulatory matters present loss contingencies that are both probable and estimable, the Company accrues the estimated loss by a charge to income. The amount accrued represents the Company's best estimate of the probable loss at the time. If only a range of estimated losses can be determined, the Company accrues an amount within the range that, in the Company's judgment, reflects the most likely outcome. In cases that the Company has accrued an estimated loss, the accrued amount may differ materially from the ultimate amount of the relevant costs. In many proceedings, it is inherently difficult to determine whether any loss is probable or even possible or to estimate the amount of any loss. As a litigation or regulatory matter develops, the Company monitors the matter for further developments that could affect the amount previously accrued, if any, and updates such amount accrued or disclosures previously provided as appropriate.

Except as otherwise noted, the Company believes that the legal actions, proceedings and investigations currently pending against it should not have a material adverse effect on the Company's results of operation, financial condition or liquidity other than possibly the matters referred to in the following paragraphs. However, in light of the uncertainties involved in these matters, there is no assurance that their ultimate resolution will not exceed the amounts currently accrued by the Company and that an adverse outcome in one or more of these matters could be material to the Company's results of operation, financial condition or liquidity for any particular period.

Out-of-Network Claims Litigation and Investigations

On February 13, 2008, State of New York Attorney General Andrew M. Cuomo announced an industry-wide investigation into the use of data provided by Ingenix, Inc., a subsidiary of United Healthcare, used to calculate payments for services provided by out-of-network providers. The Company received four subpoenas from the New York Attorney General's office in connection with this investigation and responded appropriately. On February 17, 2009, the Company entered into an Assurance of Discontinuance resolving the investigation. In connection with the industry-wide resolution, the Company contributed \$10 million to the establishment of a new non-profit company that now compiles and provides the data formerly provided by Ingenix.

The Company was named as a defendant in a number of putative nationwide class actions asserting that due to the use of data from Ingenix, Inc., the Company improperly underpaid claims, an industry-wide issue. All of the class actions were consolidated into *Franco v. Connecticut General Life Insurance Company et al.* that is pending in the United States District Court for the District of New Jersey. The consolidated amended complaint, filed on August 7, 2009, asserts claims under ERISA, the Racketeer Influenced and Corrupt Organization (RICO) Act, the Sherman Antitrust Act and New Jersey state law on behalf of subscribers, health care providers and various medical associations.

On September 23, 2011, the court granted in part and denied in part the Company's motion to dismiss the consolidated amended complaint. The court dismissed all claims by the health care provider and medical association plaintiffs for lack of standing to sue, and as a result the case will proceed only on

behalf of subscribers. In addition, the court dismissed all of the antitrust claims, the ERISA claims based on disclosure and the New Jersey state law claims. The court did not dismiss the ERISA claims for benefits and claims under the RICO Act.

Plaintiffs filed a motion to certify a nationwide class of subscriber plaintiffs on December 19, 2011, which was denied on January 16, 2013. Plaintiffs petitioned for an immediate appeal of the order denying class certification, but their petition was denied by the United States Court of Appeals for the Third Circuit on March 14, 2013, meaning that plaintiffs cannot appeal the denial of class certification until there is a final judgment in the case. As a result, the case is proceeding in the District Court on behalf of the named plaintiffs only.

It is reasonably possible that others could initiate additional litigation or additional regulatory action against the Company with respect to use of data provided by Ingenix, Inc. The Company denies the allegations asserted in the investigations and litigation and will vigorously defend itself in these matters.

20. Fair Value Measurement

The Company’s financial assets measured at fair value include bonds valued at the lower of cost or fair value when reported at the balance sheet date. As of December 31, 2013 and December 31, 2012, the Company had no bonds carried at fair value in the financial statements.

Financial instruments (bonds) that are subject to fair value disclosure requirements are carried in the financial statements at amortized cost. The fair values used for financial instruments are estimates, which in many cases may differ significantly from the amounts, which could be realized upon immediate liquidation.

The Company’s financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset’s or a liability’s classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument’s fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The Company estimates fair values of bonds using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available and other market information that a market participant may use to estimate fair value. The internal pricing methods are performed by the Company’s investment professionals, and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little to no market activity for the same or similar instruments, the fair value is estimated using methods, models and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price. These valuation techniques involve some level of estimation and judgment that becomes significant with increasingly complex instruments or pricing models.

The following table provides the fair value, carrying value and classification in the fair value hierarchy of the Company's bonds not recorded at fair value as of December 31, 2013 and December 31, 2012.

22. Events Subsequent

The Company is not aware of any Type I or Type II events that occurred subsequent to the close of the books or accounts for this statement which would have had a material effect on the financial condition of the Company. In preparing these financial statements the Company has evaluated events that occurred between the balance sheet date and March 1, 2014.

23. Reinsurance

In the normal course of business, the Company enters into agreements with other insurance companies to cede reinsurance. Reinsurance is ceded primarily to limit losses from large exposures and to permit recovery of a portion of direct losses. Reinsurance does not relieve the originating insurer of liability.

Effective January 1, 1994, the Company entered into a Reinsurance Agreement with CGLIC. The Reinsurance Agreement is administered by CHC. Under the provisions of the Reinsurance Agreement, the Company pays a monthly premium based on an established rate per health plan member. In return for premiums paid, the Company is reimbursed a percentage of costs in excess of a deductible for hospital and related services provided to individual health plan members.

Effective January 1, 2011, the Agreement was amended to revise Schedule C and Section IX (2). The revised Schedule C modifies the maximum allowable premium due to CGLIC and the maximum allowable bank account funding obligation. The revision to Section IX (2) of the Agreement modifies the process by which future amendments become effective.

Effective January 1, 2013, the Agreement was amended to change the reinsurer to Cigna Health And Life Insurance Company (CHLIC) for claims incurred January 1, 2013 and after.

Responsibility for covered charges under the CGLIC Reinsurance Agreement per member per year during the periods ended December 31, 2013 and 2012 was as follows:

December 31, 2013

\$150,000 and greater	-	20% the Company 80% CHLIC
-----------------------	---	------------------------------

December 30, 2012

\$150,000 and greater	-	20% the Company 80% CGLIC
-----------------------	---	------------------------------

Premiums paid to CGLIC/CHLIC and to CHC, as administrator, for this agreement amounted to \$0 for the periods ended December 31, 2013 and 2012 and are reported as an offset to premiums in the accompanying Statutory Statements of Income. Recoveries for covered charges amounted to \$0 as of December 31, 2013 and 2012. These balances are included in net reinsurance recoveries in the accompanying Statutory Statements of Income.

Yes () No (X)

If yes, give full details.

- (2) Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business?

Yes () No (X)

If yes, give full details.

Section 2 – Ceded Reinsurance Report – Part A

- (1) Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credit?

Yes () No (X)

a. If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the reporting entity to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the reporting entity may consider the current or anticipated experience of the business reinsured in making this estimate \$0.

b. What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability for these agreements in this statement? \$0.

- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Yes () No (X)

If yes, give full details.

Section 3 – Ceded Reinsurance Report – Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the company may consider the current or anticipated experience of the business reinsured in making this estimate. \$0

24. Retrospectively Rated Contracts & Contracts Subject to Redetermination

- A. The Company has no estimated accrued retrospective premium adjustments
- B. The Company has no recorded accrued retrospective premium.
- C. The company has no net premiums written.
- D. On January 1, 2011, the minimum loss ratio rebate provisions of the Patient Protection and Affordable Care Act became effective and will require payment of premium rebates beginning 2012 to employers and customers covered under the Company's comprehensive medical

insurance if certain annual minimum medical loss ratios are not met. At the close of each quarter, the Company records its rebate accrual based on year-to-date estimated medical loss ratios calculated as prescribed by the interim final rule issued by the Department of Health & Human Services using year-to-date premium and claim information by state and market segment. Since this accrual reflects the amount of rebate that would be payable based on year-to-date estimated medical loss ratios, the amount of rebate will fluctuate as actual claim experience develops each calendar quarter. As of December 31, 2013 and December 31, 2012, no amounts were accrued.

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2013 were \$0. As of December 31, 2013, \$6,583 was refunded for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$0 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Comprehensive lines of insurance. Therefore, there has been a \$6,583 favorable prior-year development since December 31, 2012 to December 31, 2013. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
